

Refine Your Figure. Eliminate Fat.

"I would never have considered traditional liposuction, but VASERlipo made me finally decide to address those problem areas on my body."

Caroline, Colorado

"I had VASERlipo, and my result is nothing less than SPECTACULAR! I went from a 14 pant size to a size 4/6 it's hard to imagine I am the same person when looking at my before-and-after photos."

Leilani, Texas

VASERlipo™
PRECISION BODY CONTOURING

Advancing the Art of Liposuction

An alternative to the harsh techniques of traditional liposuction, VASERlipo is unique in its ability to target fat while leaving other important tissues intact. It's powerful enough to treat more delicate areas.

- Improved body contouring over traditional liposuction
- Enhanced skin retraction for smooth results
- Treat multiple areas in a single procedure

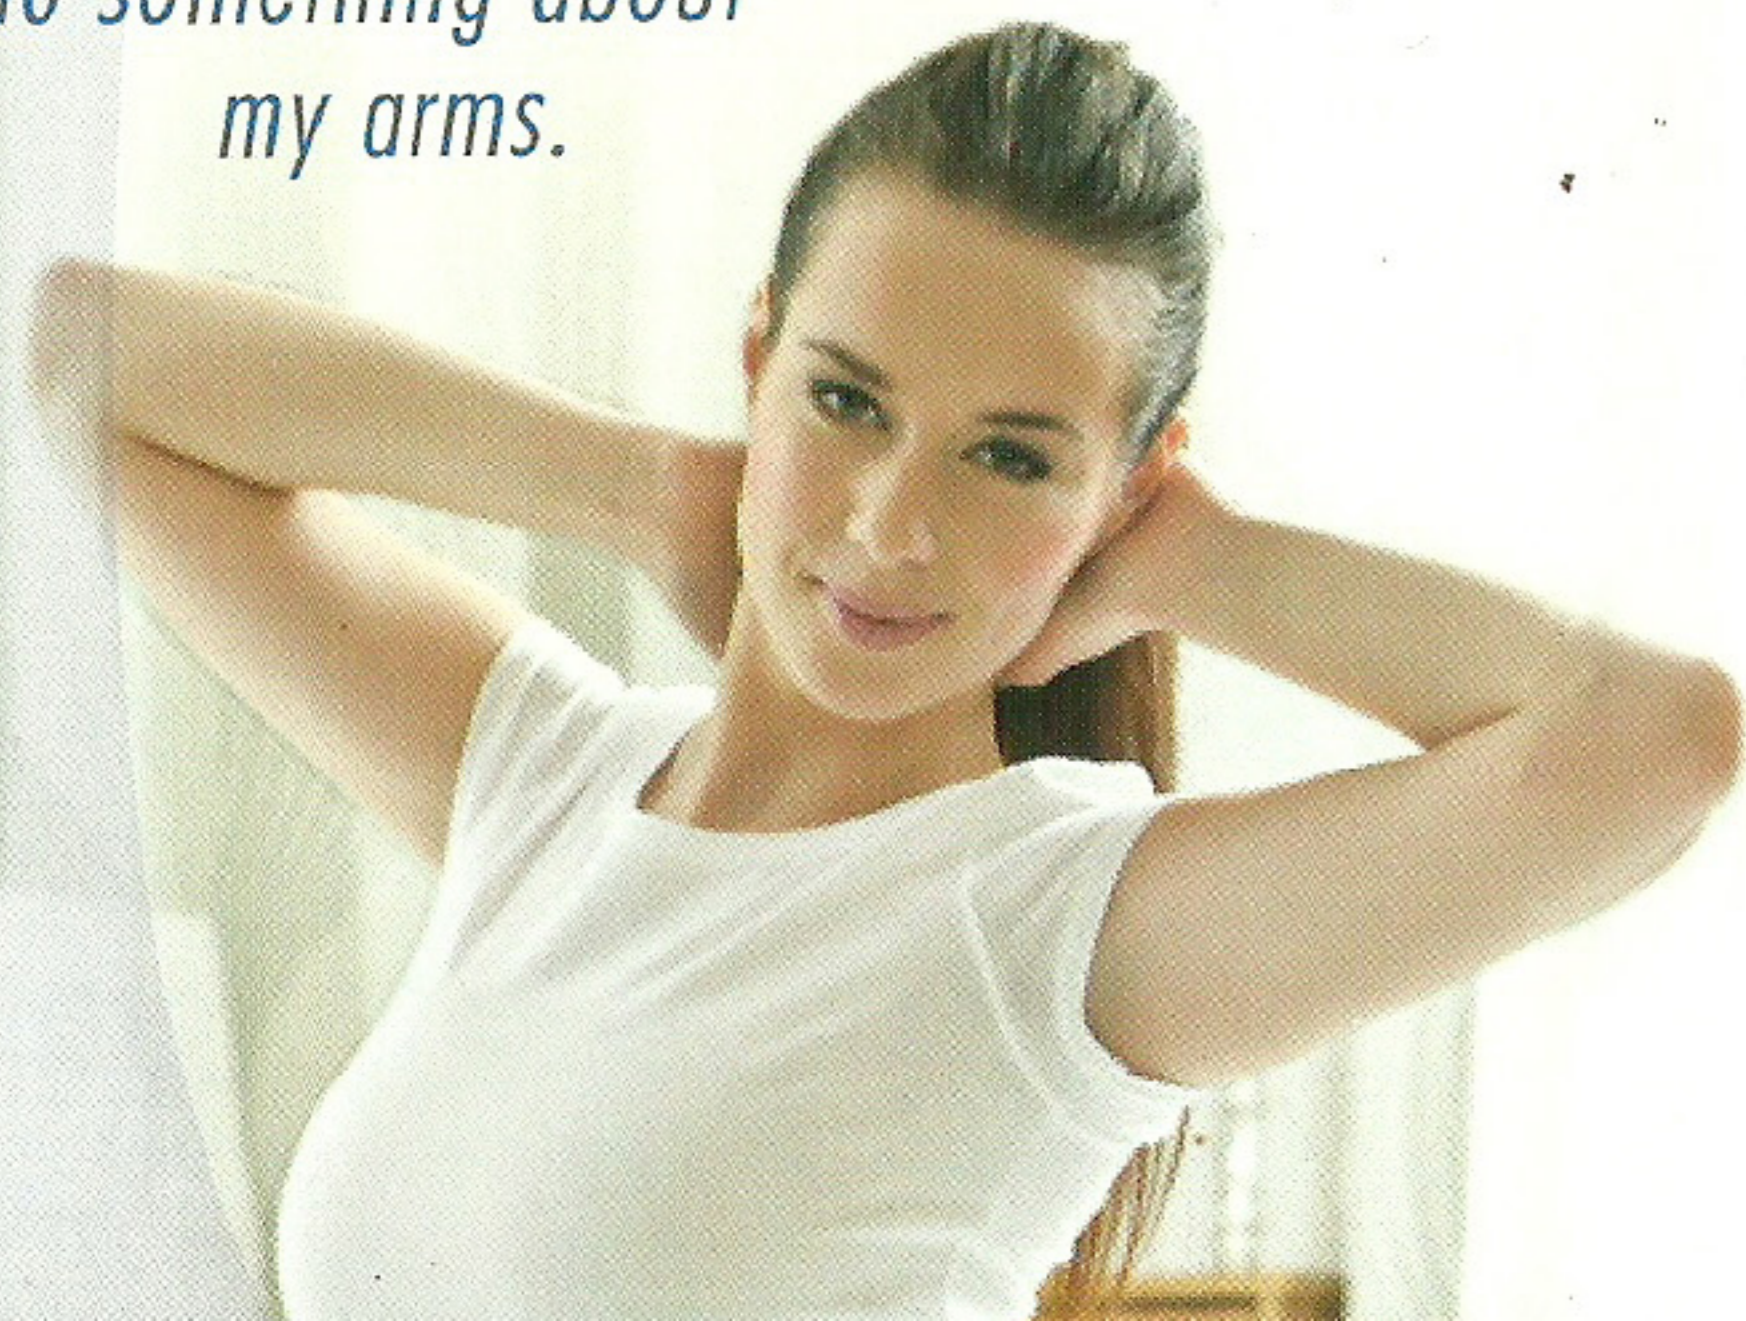

If you've struggled with weight gain,

and exercise and diet just haven't given you the dramatic transformation you'd like, VASERlipo™ can help.

VASERlipo can sculpt and shape multiple areas in a single procedure, including:

- Jowls, chin and neck
- Abs, hips or love handles
- Male and female breasts
- Arms
- Back, buttocks or thighs
- Knees, calves or ankles

I finally decided to do something about my arms.

VASERlipo is an advanced body sculpting procedure that eliminates fat to gently reshape your body, making you look and feel your best:

- Single procedure results
- Speedy recovery times
- Clinically proven to produce even results

How does it work?

During a VASERlipo procedure, the area to be treated is filled with a medicated solution. The fat cells are then treated with state-of-the-art ultrasound energy and are removed from the body through a gentle suction process. The surrounding tissues are left intact, giving you the smooth contours you want with less pain or recovery time than traditional liposuction.

Unleash Your Inner Six-Pack

Get the definition you've always wanted with VASER Hi-Def®. This advanced sculpting technique takes VASERlipo to a whole new level. By removing the fat around muscle groups, muscles look more defined, giving you a sculpted, athletic appearance.

My overall results are AMAZING! I love having a flat stomach, thinner thighs and a more sculpted chin and neck. If I had to do it all over again, I would without hesitation.

Alicia, Colorado
