elōs Plus™ Complete Aesthetic Work Station

Finally, a multi-application system for professionals!

The new elōs Plus™ Complete Aesthetic Work Station utilizes

- **elōs Technology** - a combination of optical energy and bi-polar radio frequency (RF) - for safe and effective treatments on all skin types.
- **Upgradeable**, with 8 different treatment applicators
- **Intuitive user interface** with easy to use guided treatment options
- **Motif Mode™** for fast, effective and "Pain Free" hair removal and skin treatments
- **Sublative™** fractionated bi-polar radio frequency (RF) for increased collagen with minimal epidermal disruption
- **triniti™** - a total skin rejuvenation protocol in the same visit

NEW!

- ☑ Complete Full Range Applications
- ☑ Safe & Effective on All Skin & Hair Types
- ☑ Innovative Feedback System for Optimal Results!

Features and Benefits

elōs Plus™

System	Intuitive Touch Screen Interface	Improved ease of use
	Guided Treatment Modes	Quick Reference Guide is embedded in the Interactive screen
	Plug & Play software upgrades	Easy to upgrade applications
	Cooling capacity increased versus e-max	System works faster
Clinical	Combination of Sublime & Sublative	Multi-level treatment of the skin for complete facial rejuvenation in one visit
	Integration of IFS (Intelligent Feedback System)	Ensures precise RF energy delivery regardless of skin impedance variations
	The Triniti treatment protocol	SR/SRA: Color correction Sublime: Facial contouring & laxity treatment Motif IR: Focused wrinkle treatment
	Full Sublative iD support on the Sublative RF applicator	Maximizes treatment options and results
	Addition of Motif™ modes to 3 applicators	Enables "Pain Free" hair removal and skin treatments
	High output frequency of up to 3 Hz in LHR (normal) mode & 10 Hz in Motif mode	Fast treatment times
	New RF electronics measure RF more accurately	Improves bad coupling and partial contact issues
Safety & Patient Comfort	Active Dermal Monitoring™	ISM / ISL Monitors the skin impedance changes throughout each pulse & cuts pulse when reaching set limit Strong safety profile
	Integrated sapphire contact cooling	Increased patient comfort and added safety
	Short / long pulse - Enables selection sub-pulse frequency	Added safety and patient comfort
	Optimized tip geometry on Motif HR applicator	Increased patient comfort
Industrial Design	Single turn applicator connectors	Easy to connect / disconnect applicators
	Water purity sensor	Informs user if water needs to be changed
	Water bottle located in the front of the system	Easy access to water bottle
	Tilting screen	Various viewing angles
